Nauta Romanus

(Februarius. 21, 2000 -21 annem)

I Ego oceanus amo,

Naviculae multae in aqua habitant,

Ego cum ventus ago,

Similis nymphae is volant.

II

Caelum caeruleus tectum noster est sed magnopere,

Navicula noster servum undae est,

Luna mater noster est quod nos curat et in caelum sedere,

Sed interdum ego castanae et umbrae desidero, sed terra non adest.

Imperator Romanum

(Februarius 21, 2000 - 21 annem)

Vir sed non vir, pater mundi,

Romani contendat,

Galea is populum eius defendit,

Ubi imperator in lectica cum servi ambulat,

Ille populum laetum ducit.

Ego Ad Fontem Ambulo

(Februarius 9, 2003 - 24 annem)

I

Aqua, aqua desidero,

Ambula ad fontem dum...

Ita vero! Ita vero!

Ego dico quod fessa sum.

II

Mater urnas magnas habet,
Viam multi saxi ostendit,
Canem meus in viam manet,
Frater meus in viam ludit.

III

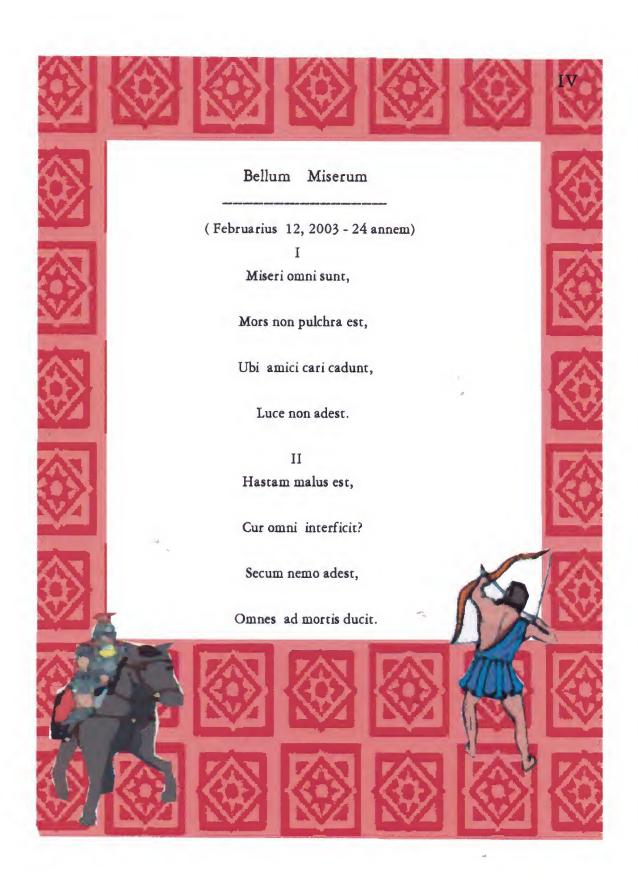

Itaque ego ad fontem ambulo,

Vita femina aegre est,

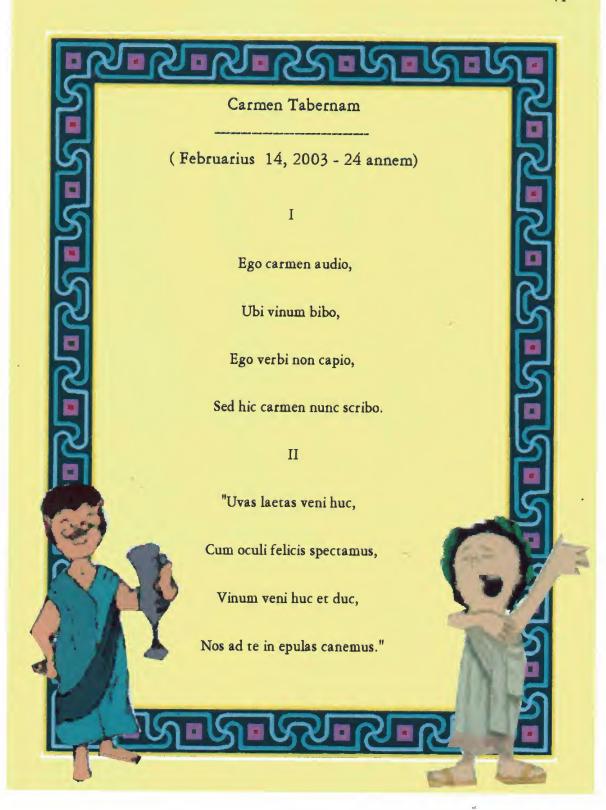

Sed ira non consumo,

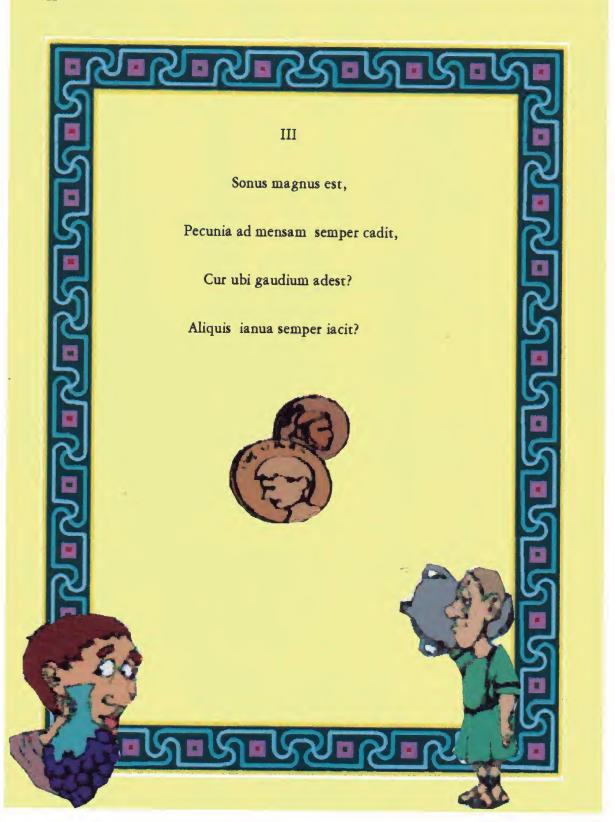

Ubi amica mea prope fontem adest.

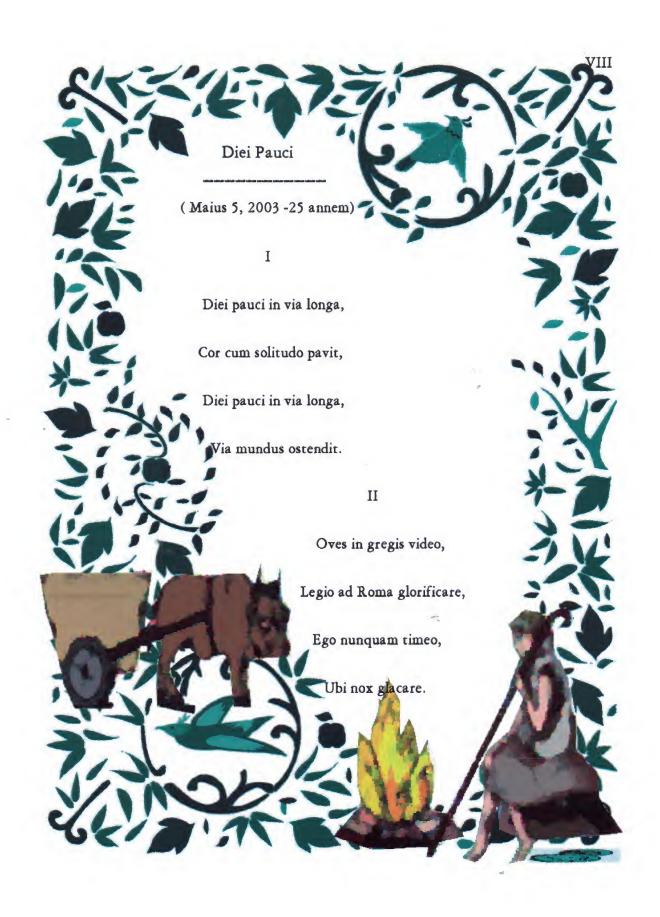

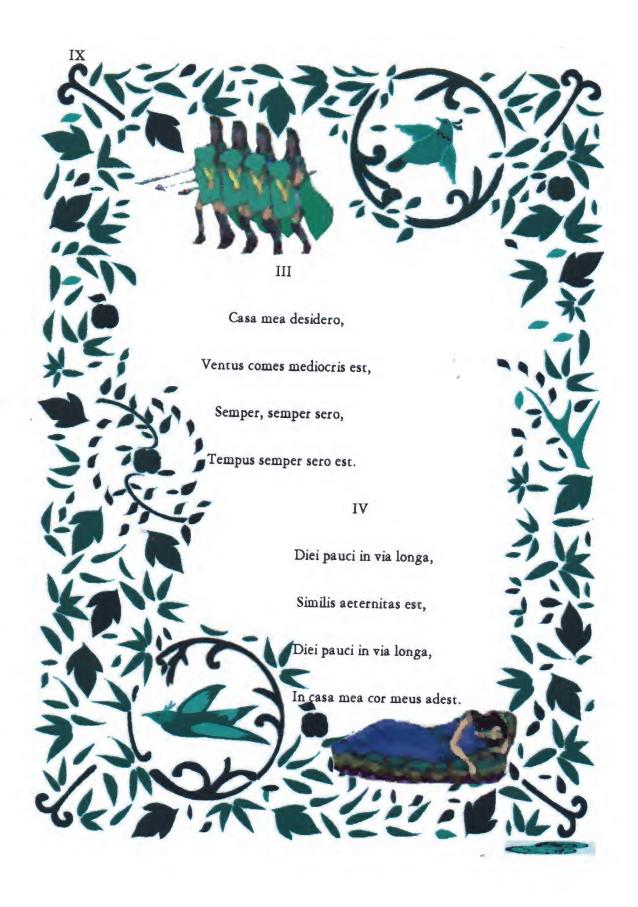

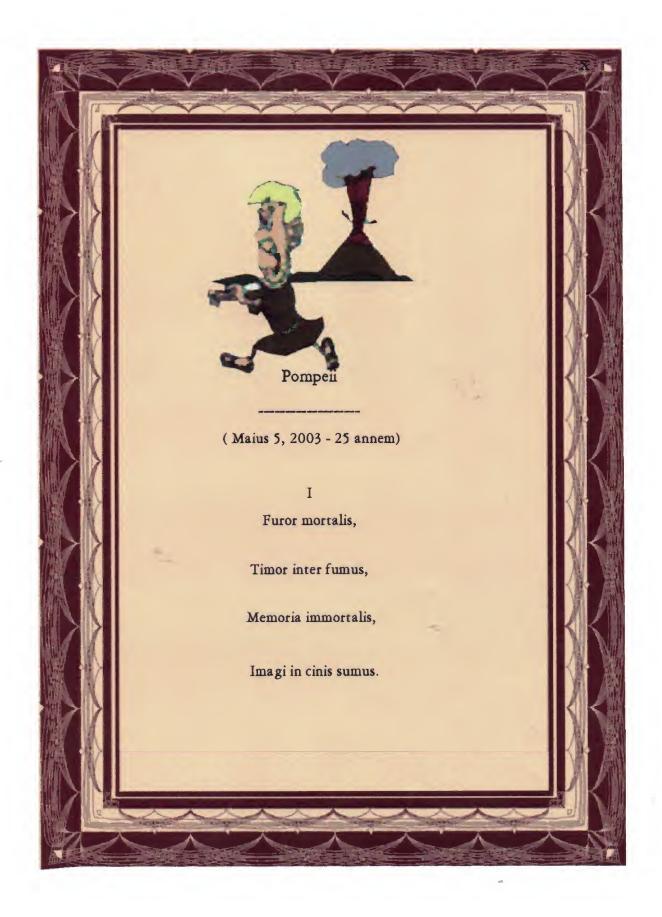

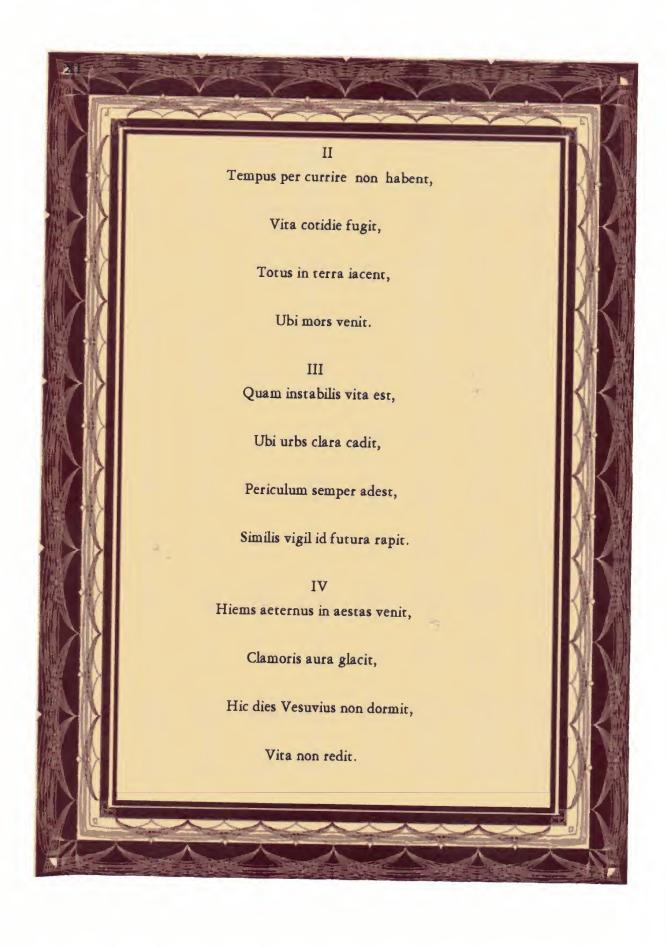

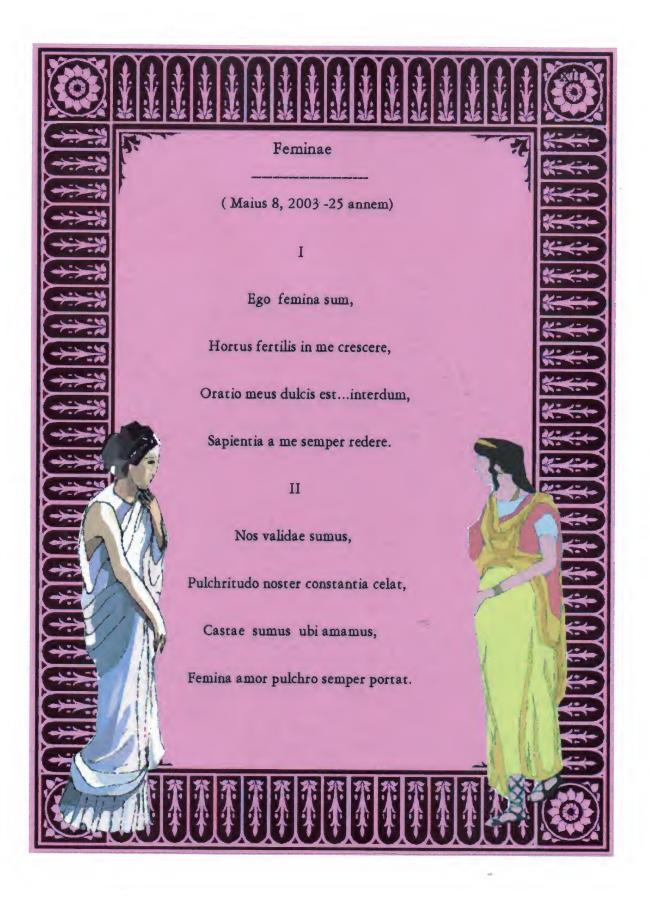

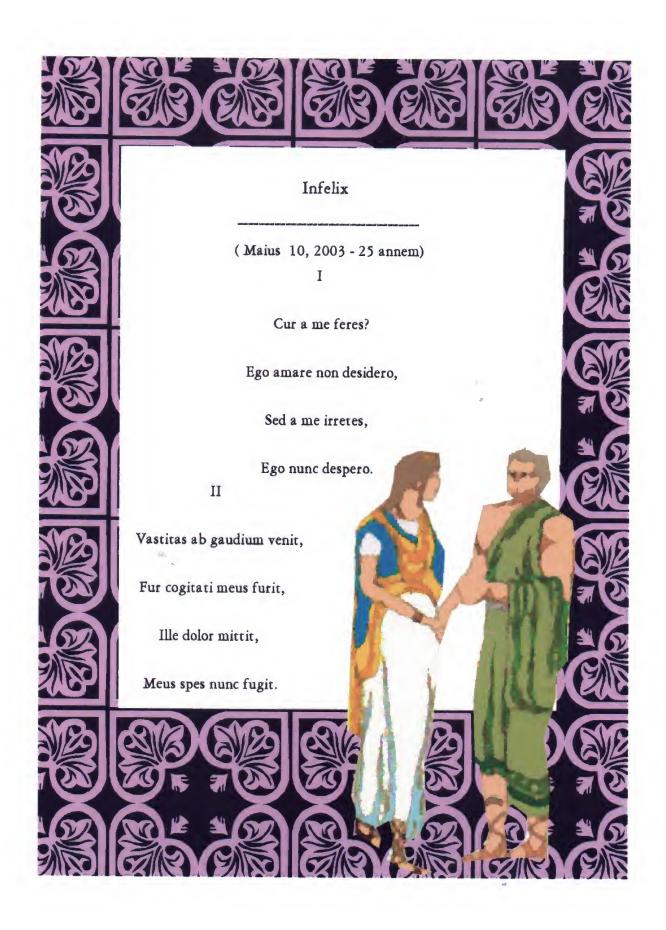

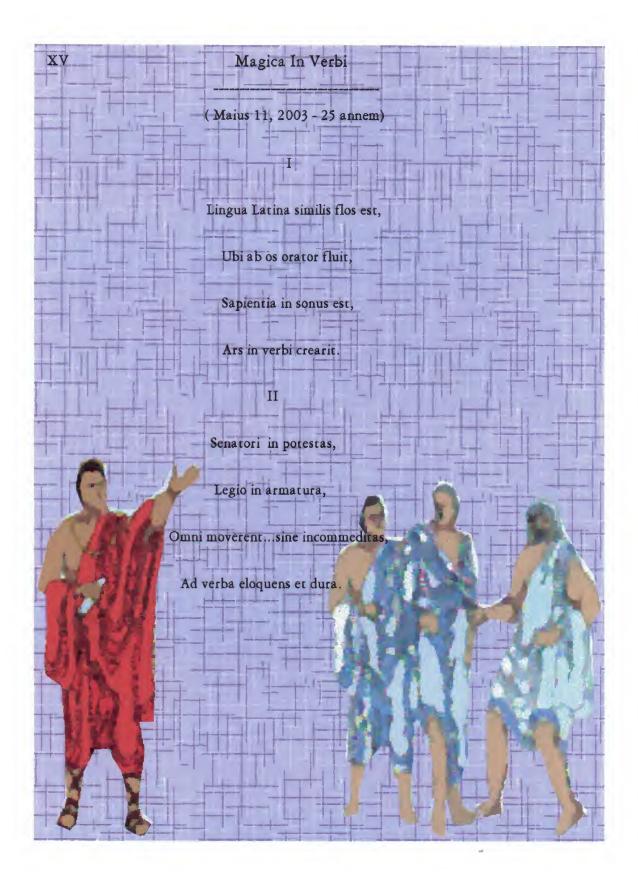

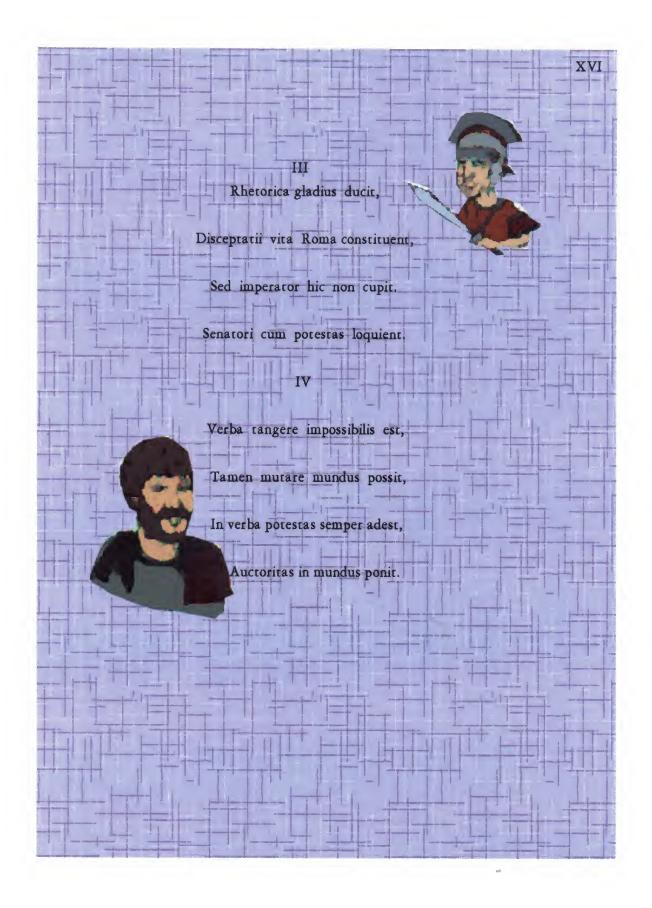

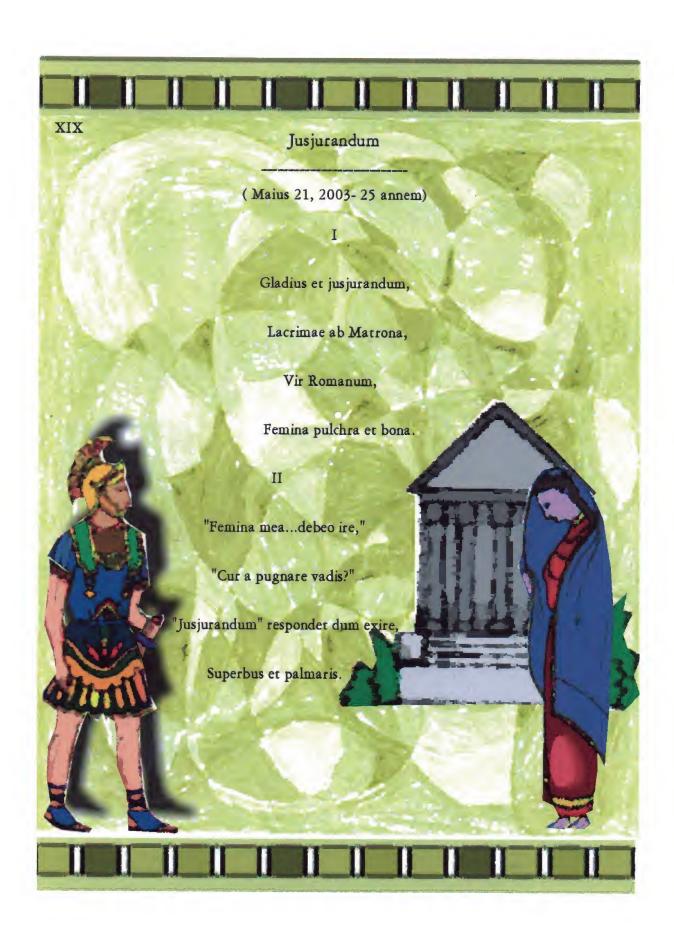

III

XX

"Superbia fur est!

Maritus meus furit,

Amor meus non adest,

Superbia ille ducit."

IV

"Filia mea, viri sine honos non vivent."

"Mater, honos maritus meus non est."

"Sine honos superbia non habent."

"Mater, superbia grandis senectus est."

V

"Bellum similis tali est,

Viri vincere vel perdere possunt."

"Vita mea instabilis est,

Dubium et gaudium amici non sunt."
